- 8500mAh Extended Battery
- TPU Case
- U-Shape Connector

### Technical Specifications:

Battery Capacity	8500mAh
Input	DC 5V/2A 9V/1.67A
Output	Output1:1.2A(Max) Output2: 1A
Dimension	6.5x3.27x0.83 inches

### Product Highlights:

Place the phone on top of the Extended Battery

Installation  
STEPS

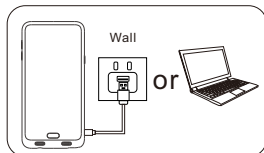

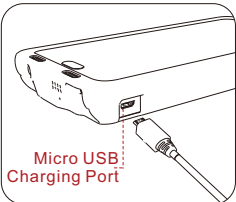

Connect the phone to the battery using the U-Shape Connector

Completed!

Put the phone and battery into the TPU Case by pushing the U-Shape Connector side in first

### How to Charge the Extended Battery:

Plug a micro USB cable into your phone's micro USB charging port. Or you can plug the micro USB cable into your PC's USB port. We recommend using a USB wall charger instead of a PC USB port for a faster charge.  
**Recommended Initial Charge Time** : 8-12 Hours. In order to achieve optimal performance of the battery, please perform an initial 5-6 full discharge(100%-1%)/recharge cycles(1%-100%).

### Battery Maintenance:

1. Avoid heavy impacts or putting excessive pressure on the external battery.
2. Do not leave the battery in extremely hot or cold locations.
3. Do not throw the battery into a fire.
4. Charge the battery to 100% every 2 months for optimal conditioning.
5. For optimal charging, use only ZeroLemon supplied charging cables or the original manufacturer's phone/tablet charging cable.
6. Do not disassemble the battery, as this may cause a short circuit to occur.
7. Dispose of the battery immediately if it becomes deformed or bloated.
8. Do not submerge the battery in water.
9. Keep the battery away from children.
10. Dispose of the battery at a proper recycling facility if needed.

### Warranty:

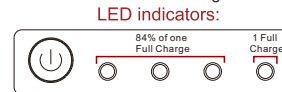

Our products are covered under our **180 days** ZeroLemon Promise Guarantee. If, at any time, you encounter any issue with the battery case, please contact us at [zerolemon.com/contactus](mailto:zerolemon.com/contactus) with your Order ID and we will be more than happy to assist you.

### FAQ:

**Q1)** My phone is not charging when connected to the extended battery:  
**Answer:** Please ensure that the battery is charged.

**Q2)** The battery is still not charging.  
**Answer:** Please remove the TriCell battery from your phone, and insert it into the battery slot of your phone again. Please make sure the U-shape connector is connected to the correct side. The word "PHONE" is printed on the side of connector that should be connected to your phone.

**Q3)** How does the LED Indicator indicate Power level when charging your phone?  
**Answer:** The last LED on the right indicates one full charge (0%-100%). The other 3 LEDs indicate approximately 84% of one full charge.

**Q4)** I have other questions. What should I do?  
**Answer:** Contact us at [zerolemon.com/contactus](mailto:zerolemon.com/contactus) with your Order ID and we will be able to assist you.

### Return and Exchange Contact:

If you purchased from a retail store, please contact us at [www.zerolemon.com/contactus](mailto:zerolemon.com/contactus). If your order was placed with another reseller, please contact your seller directly for return and exchange.
