- Instruction Manual

#### Technical Specifications:

Battery Capacity	3500mAh
Output	5V/1.5A(Max.)
Standard Micro USB Cable Input	5V/1.5A(Max.)
Dimension	6.19 x 2.9 x 0.7 inches

#### Product Highlights:

#### How to Turn on Your Battery Case and Charge Your Phone:

Turn to the back of your case. Press the power button for 3 to 5 seconds. You will also see a charging symbol appear at the top right corner of your screen to indicate that your device is charging.

#### How to Check Power Level of Your Battery Case:

Press the power button for 1 second. The LED lights will flash to indicate the current charging capacity level.

#### How to Turn Off Your Battery Case and Stop Charging Your Phone:

Hold the power button and wait for all the LEDs to flash progressively. The LED lights will go off when your phone is no longer charging and the charging symbol at the top right corner of your device will disappear.

#### How to Charge Your Battery Case:

Plug the micro USB cable into your phone's AC adapter. Or you can plug the included micro USB cable into your PC's USB port. We recommend using USB wall charger instead of PC USB port for faster charge.

**Recommended Initial Charge Time:** 8-12 Hours. In order to achieve optimal performance of the battery, please perform initial 5-6 full discharge(100%-1%)/recharge cycles(1%-100%).

The LED indicators on the battery case will sequentially light up. All the LEDs will be fully lit when the device has been completely charged.

#### How to Use the Earphone Adaptor and Insert Your Earphones into your Phone Through the Battery Case:

Simply insert the earphone jack into the earphone slot. Afterwards, insert your earphones into the jack opening.

- #### Battery Maintenance:
1. Avoid heavy impacts or putting excessive pressure on the external battery.
  2. Do not leave the battery in extremely hot or cold locations.
  3. Do not throw the battery into a fire.
  4. Charge the battery to 100% every 2 months for optimal conditioning.
  5. For optimal charging, use only ZeroLemon supplied charging cables or the original manufacturer's phone/tablet charging cable.
  6. Do not disassemble the battery, as this may cause a short circuit to occur.
  7. Dispose of the battery immediately if it becomes deformed or bloated.
  8. Do not submerge the battery in water.
  9. Keep the battery away from children.
  10. Dispose of the battery at a proper recycling facility if needed.

#### FAQ:

- Q1)** My phone is not charging when it is plugged into the battery:  
**Answer:** Please ensure that the battery case is charged by connecting the Micro USB Cable.
- Q2)** No LED light comes on when I press the power button:  
**Answer:** Please ensure that the removable battery is charged. Please ensure you hold down the power button for at least 5 seconds before releasing it. Also check that the front plate is snapped on properly.
- Q3)** My phone is not charging, even though the LEDs on my case are lit up:  
**Answer:** Please ensure your battery is seated properly within the battery case. Please reseal the removable battery by removing your phone from the case and trying again.
- Q4)** I have other questions. What should I do?  
**Answer:** Contact us at [zerolemon.com/contactus](http://zerolemon.com/contactus) with your Order ID and we will be able to assist you.

#### Warranty:

Our products are covered under our **1 Year ZeroLemon Promise Guarantee**. If, at any time, you encounter any issue with the battery case, please contact us at [zerolemon.com/contactus](http://zerolemon.com/contactus) with your Order ID and we will be more than happy to assist you.

#### Return and Exchange Contact:

If you order from [zerolemon.com](http://zerolemon.com) directly or from Amazon USA/Canada & Ebay, please contact us at [www.zerolemon.com/contactus](http://www.zerolemon.com/contactus) with your Order ID. If your order was placed with another reseller, please contact your seller directly for return and exchange.
