How to Charge the Extended Battery:

Plug a micro USB cable into your phone's micro USB charging port. Or you can plug the micro USB cable into your PC's USB port. We recommend using USB wall charger instead of PC USB port for faster charge.

Micro USB Charging Port

-4-

Battery Maintenance:

1. Avoid heavy impacts or putting excessive pressure on the external battery.
2. Do not leave the battery in extremely hot or cold locations.
3. Do not throw the battery into a fire.
4. Charge the battery to 100% every 2 months for optimal conditioning.
5. For optimal charging, use only ZeroLemon supplied charging cables or the original manufacturer's phone/tablet charging cable.
6. Do not disassemble the battery, as this may cause a short circuit to occur.
7. Dispose of the battery immediately if it becomes deformed or bloated.
8. Do not submerge the battery in water.
9. Keep the battery away from children.
10. Dispose of the battery at a proper recycling facility if needed.

Warranty:

Our products are covered under our **180 days** ZeroLemon Promise Guarantee. If, at any time, you encounter any issue with the battery case, please contact us at zerolemon.com/contactus with your Order ID and we will be more than happy to assist you.

FAQ:

Q1) My phone is not charging when connected to the TriCell battery:

Answer: Please ensure that the battery is charged.

Q2) The battery is still not charging.

Answer: Please remove the TriCell battery from your phone, and insert it into the battery slot of your phone again. Please make sure the metal contact surface of the TriCell battery is connected to the battery interface of your phone.

Q3) How do I insert the TriCell battery into my phone?

Answer: Please remove the back plate and original battery from your phone first. And then place the TriCell battery into the battery slot of your phone. Then put all into the TPU case.

Q4) I have other questions. What should I do?

Answer: Contact us at zerolemon.com/contactus with your Order ID and we will be able to assist you.
